

OUTGOING-1

LICENCE NO. SL 1060  
SHEET 1 OF 8

WALSALL METROPOLITAN BOROUGH COUNCIL

CONTROL OF POLLUTION ACT 1974

DISPOSAL LICENCE

OTHER-2

The Metropolitan Borough of Walsall, in pursuance of the powers conferred by the Control of Pollution Act 1974, hereby license Simon Jason Hough trading as ABC Skips, 24 Sandbank, Bloxwich, Walsall, WS3 2HW (hereinafter called the "licence holder") to operate a waste transfer facility on land at Croxstalls Road, Bloxwich, Walsall which is shown edged red on the drawing attached to this licence, being land occupied by the licence holder.

This licence is granted subject to the conditions set out in the schedules attached hereto.

Dated this

23rd.

day of October 1992

Signed

Director of Environmental Health and Consumer Services

The licence holder's attention is drawn to the notes overleaf.

#### NOTES

These notes are for general guidance only and they do not constitute an authoritative statement of the law.

This licence permits the deposit, bulking and transfer of certain wastes under controlled conditions and is not intended to permit the sorting, storing, transfer or treatment of any waste except to the extent expressly referred to in the Schedules.

Definitions of certain words used in this licence are to be found in Schedule B.

This licence relates only to the requirements of the Control of Pollution Act 1974 for the deposit of waste and the use of plant or equipment subject to the conditions set out in the Schedules and does not constitute a consent required by any other legislation. In particular it is the responsibility of the licence holder to comply with any requirements of the Health and Safety at Work etc Act 1974, the Radioactive Substances Act 1960, the Town and Country Planning Acts, and all relevant water protection and environmental health legislation.

If the licence holder ceases to occupy the land specified above, then he may transfer the licence to the new occupier after giving notice to the Waste Disposal Authority who has the right to decline to accept the new licence holder.

If the licence holder wishes to cancel this licence, he must return it to the Waste Disposal Authority together with a notice stating he no longer requires the licence. Cancellation of the licence will not affect any outstanding liability of the licence holder under the conditions of the licence.

#### Contravention of Licence Conditions

Your attention is drawn to the provisions of Sections 3, 9 and 16 of the Control of Pollution Act 1974.

#### Section 3

Prohibits under penalty the deposit of waste, or the use of plant or equipment, otherwise than in accordance with the terms of a licence. This Section applies to all the conditions contained herein, including any which may be the subject of appeal to the Secretary of State under Section 10 of the Act.

Any deposit which takes place without compliance with all the licence conditions may lead to prosecution under this Section. A person who contravenes Section 3 subsection (1) shall, subject to subsection (4), be guilty of an offence and liable on summary conviction to a fine of an amount not exceeding £5,000 (at the date of issue of this licence), or on conviction on indictment to imprisonment for a term not exceeding two years or a fine or both.

Section 9

Non compliance with any licence conditions may lead to the revocation of this licence.

Section 16

The licensing authority is empowered to require the removal of any controlled waste deposited in circumstances where any of the conditions contained in this licence are not being complied with, or the undertaking of such works as are required to reduce or eliminate the consequences of such deposits.

Schedule A

1. (a) The statement of intended methods of operation and drawings contained within the documents entitled "Proposed Transfer Station at Croxstalls Road - Bloxwich for A.B.C Skip Hire. Working Plan - Statement." and "Proposed Transfer Station at Croxstalls Road for A.B.C Skip Hire. Appendix (dated 26th June 1992) To Working Plan - Statement", submitted as part of the application for this licence shall be referred to as the working plan.
- (b) No operations shall take place at the facility unless the working plan has been approved in writing by the Waste Disposal Authority ('the WDA').
- (c) Any subsequent change in the working plan shall be notified in writing to the WDA and the proposed change shall not be implemented until it has been approved in writing by the WDA.
- (d) Any reference in this licence to the working plan shall include a reference to any changes to the statement or the drawings which have been approved in writing by the WDA.
- (e) Subject to the terms of this licence, the facility shall be operated in accordance with the working plan.
2. The types of waste accepted at the facility shall consist only of household, commercial and industrial wastes.
3. (a) Notwithstanding Condition 2, only solid wastes shall be accepted at the facility and these wastes shall not contain any hazardous quantity or concentration of any poisonous, noxious or polluting substance. Any waste which is found to be putrescing shall be removed from the facility forthwith and in any case within one working day of identification.
- (b) No waste liquids, sludges or articles containing liquids or sludges shall be accepted at the facility.

4. Waste shall only be delivered to or removed from the facility between the hours of 0700 and 1700 on Mondays to Fridays and 0700 to 1300 on Saturdays. Except in cases of emergency no delivery or removal of waste shall take place outside these hours or on Sundays, Christmas Day or Boxing Day without the prior written approval of the WDA. All circumstances of emergency shall be reported to the WDA forthwith and confirmed in writing within 3 working days.
5. (a) The total quantity of waste delivered to the facility each working day shall not exceed 500m<sup>3</sup>.  
(b) No more than 300m<sup>3</sup> of waste shall be stored at the facility at any one time and no waste other than inert soil/bricks and materials segregated for reclamation shall remain at the facility for longer than 48 hours. If requested by the WDA any waste stored at the facility shall be removed forthwith.
6. Prior to the acceptance of any waste, bays for the tipping and storage of waste and reclaimed materials shall be constructed as detailed in and at the locations shown in the working plan.
7. (a) Waste and reclaimed materials shall only be stored in the manner and at the locations detailed in the working plan.  
(b) Waste and reclaimed materials shall not be stored to a height greater than 1.5m and this height shall be clearly marked within each storage bay.
8. Any waste which is inadvertently delivered to or left at the facility which is not permitted under the terms of this licence shall be dealt with as detailed in the working plan. Any waste which is found to be causing an environmental hazard shall be removed forthwith and in any case within one working day. The WDA shall be informed forthwith of any such occurrence and this shall be confirmed in writing within 3 working days.
9. Gates and fencing shall be provided and maintained as detailed in the working plan. The gates shall be locked outside operating hours and when the facility is unattended and measures shall be taken to prevent unauthorised access and/or the unlawful deposit of waste.
10. An identification board of durable material and finish shall be permanently displayed at the entrance to the facility. This shall show the name of the facility and shall show the name, address and telephone number of the licence holder and the WDA and a telephone number through which a responsible person may be contacted in the event of an emergency occurring when the facility is unattended.
11. The yard area shall be surfaced as detailed in the working plan and maintained in good repair at all times.

12. Drainage facilities shall be provided and maintained as detailed in the working plan so as to prevent the accumulation of water within the facility; the pollution, by solid matter, liquid or otherwise of any watercourse or sewer; and the spillage of water onto land outside the facility. All discharges to sewer shall be via an interceptor as detailed in the working plan and have been previously agreed with Severn Trent Water Limited.
13. Lighting, as detailed in the working plan, shall be provided, maintained and used for those operations which are to be carried out during the hours of darkness as defined by the Science and Engineering Research Council.
14. When open for the receipt, removal or processing of waste the facility shall be manned and supervised as detailed in the working plan. Supervisors must be able to identify the general categories of waste allowed by this licence and be fully conversant with unloading/loading and operational procedures and be trained to implement emergency procedures.
15. Liquids used for the operation and maintenance of equipment and facilities shall be stored at the facility only as detailed in the working plan. Tanks and drums used for the storage of such liquids shall be contained in impermeably bunded compounds and shall be of a type and construction suitable for the liquids they contain and labelled to show their contents. They shall conform, where necessary, to all relevant safety and construction standards and shall only be installed at locations shown in the working plan. All inlet/outlet/vent pipes and gauges shall be within the bunded area. The bunded compound must have an available capacity of at least 110% volume of the largest drum or tank being stored within the compound. Rainwater shall not be allowed to accumulate and spillages shall be removed forthwith.
16. Any spillage occurring at the facility shall be contained and removed in accordance with the procedure detailed in the working plan.
17. Plant and equipment shall be provided, maintained, used and stored as detailed in the working plan.
18. Provision shall be made for the parking, loading and unloading of vehicles using the facility.
19. Any breakdown or emergency which necessitates the implementation of standby operating and disposal arrangements as detailed in the working plan shall be notified to the WDA forthwith and confirmed in writing within 3 working days. A record shall be kept whenever these arrangements are implemented.
20. The facility and its immediate environs shall be kept clean and tidy at all times. The yard shall be swept each working day and loose material shall be collected and disposed of as detailed in the working plan.

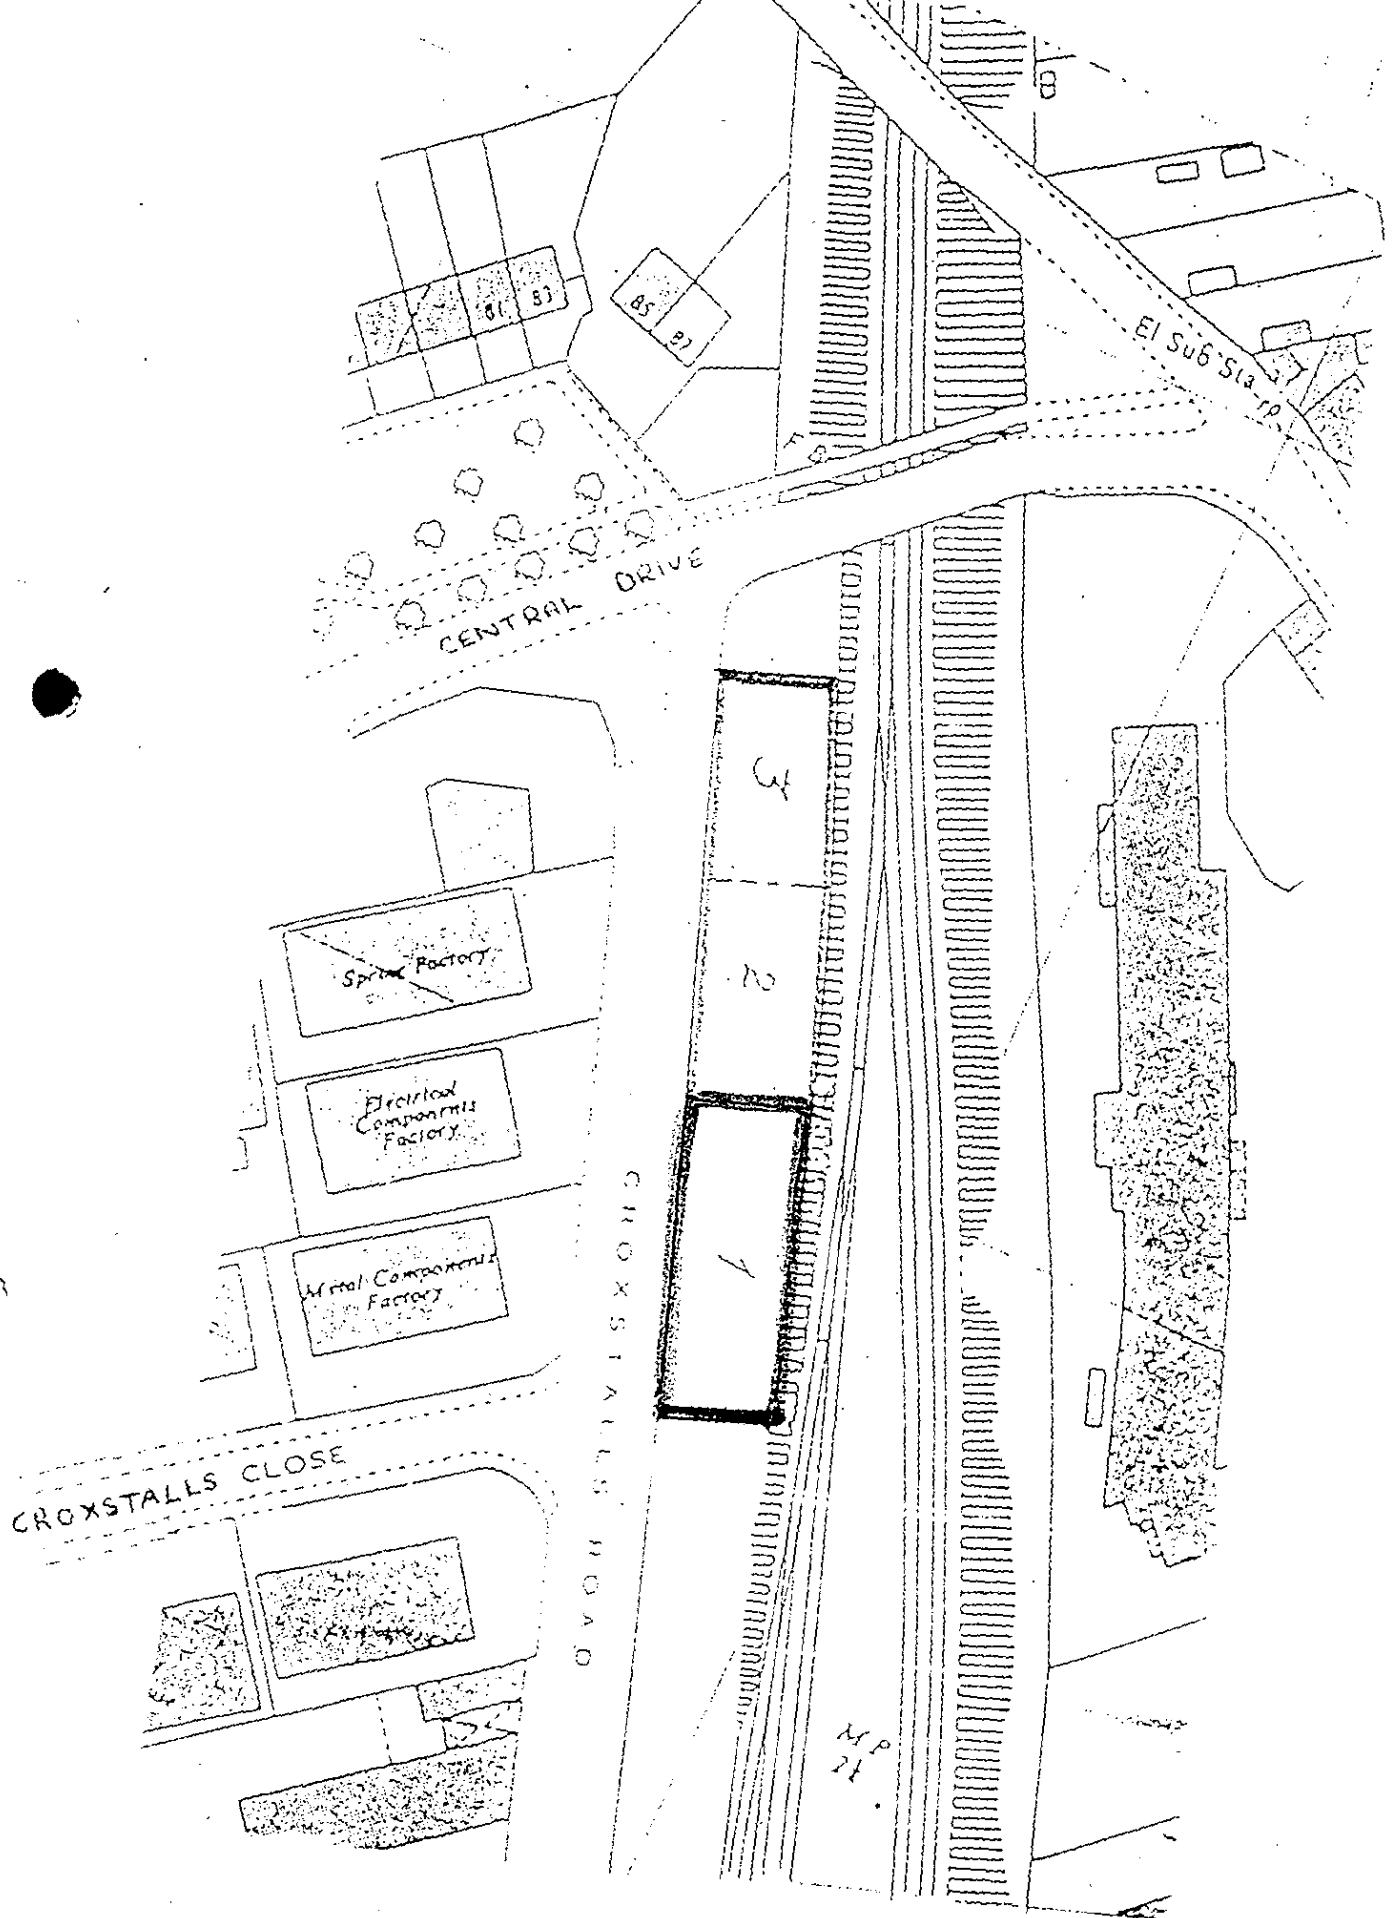

21. Waste shall be sprayed with deodorant, disinfectant and/or dust suppressant to control odours and dust as detailed in the working plan.
22. The facility shall be inspected each working day for vermin. Action shall be taken to deal effectively with any vermin found at the facility as detailed in the working plan. A record shall be kept of inspections and any treatment undertaken.
23. No material shall be burned within the boundaries of the facility. Any fire occurring within the confines of the facility shall be treated as an emergency and immediate steps shall be taken to extinguish it. All fires shall be reported to the Fire Service and WDA immediately. Fire fighting equipment shall be provided and regularly maintained as detailed in the working plan.
24. Provision shall be made to allow safe access to the operational areas of the facility at all reasonable times for representatives of the WDA for the purpose of monitoring conditions at the facility.
25. A full record shall be kept on forms supplied by the WDA of wastes delivered to and removed from the facility and copies shall be sent to the WDA once a month or at a frequency specified by the WDA. These records shall be made available to any representative of the WDA for inspection at the facility at any reasonable time.
26. Any actual or anticipated cessation of operations at the facility in excess of 1 month shall be notified to the WDA forthwith and confirmed in writing within 3 working days. In the event of a cessation of operations for a period in excess of 1 month not less than 14 days notice shall be given to the WDA of the date on which operations are due to recommence.
27. A copy of any notice or instruction received in respect of the facility from any authority other than the WDA, which in any way relates to the use of the facility, shall be given to the WDA within 3 days of the receipt of such notice or instruction.
28. The terms of this licence and the details in the approved working plan and any approved amendments to either document shall be made known to any person who is given responsibility for the management or control of the facility. A copy of all these documents shall be available at the facility at all times.

Schedule B

1. In this licence, an emergency is defined as a case where a person suspects that circumstances exist which are likely to endanger life or health or cause damage to property or pollution of water.
2. In this licence, a representative of the WDA includes an officer of the Environmental Health and Consumer Services Department and an officer of the West Midlands Hazardous Waste Unit.
3. A quantity or concentration of any substance contained in any waste is regarded to be hazardous if that substance is present in that waste in such a quantity or concentration as to subject persons or animals to material risk of death, injury or impairment of health, or as to threaten the pollution or contamination (whether on the surface or underground) of any water supply.
