Date: 09 April 2010

Dear Mr Simmonds

Application for an environmental permit is duly made

**Application Ref:** 

EA/EPR/GP3394SM/A001 (EAWML 101502)

Operator: Facility:

Triple R Solutions Limited Triple R Solutions Limited

Rose Hill Willenhall West Midlands WV13 2AP

I am writing to inform you that your application which we received on 29 March 2010 is now duly made as of 29 March 2010.

If your application contained a request for commercial confidentiality we will write to you separately with our determination of this request.

We will seek to determine your application as quickly as possible, but the time taken will be largely dependant on the completeness of the technical aspects of your application, the complexity of your proposal, and in some cases the level of third party interest.

The relevant statutory period will expire on **29 June 2010**, although this is automatically extended if, for example, we have asked you formally for further information, or you have requested certain documents be kept confidential. In these circumstances we will ensure that you are kept informed of the extended date.

It may help you to know that we currently take an average of 6 months, from the duly made date, to determine complex bespoke permit applications, although standard permits, variations, transfers and surrender are normally determined much more quickly.

Permitting Support Centre, Quadrant 2, 99 Parkway Avenue, Parkway Business Park, Sheffield, S9 4WF

Customer services line: 08708 506 506 Fax: 01142 626660

Email: psc@environment-agency.gov.uk

One of our Permitting Officers will contact you shortly to introduce themselves, and to discuss your application and the likely timescale for its determination.

If we are unlikely to determine your application within the relevant statutory period we will contact you to agree an extension of the determination date. Where this cannot be agreed you have an option to serve notice on the Environment Agency that you deem your application to have been refused. You are then entitled to commence appeal proceedings in relation to this deemed refusal. We will tell you what to do if this happens.

If you have any questions please phone/ contact a member of the Permitting Support Team on 08708 506506 or email psc@environment-agency.gov.uk.

Yours sincerely

Carly Howcutt

#### 5 Operating techniques

#### 5a Technical standards

Fill in table 2 for each activity referred to in table 1 above and list the relevant technical guidance note or notes you are planning to use. If you are planning to use the standards set out in the technical guidance note, there is no need to justify using them. You must justify your decisions in a separate document (this could be a reference to section 8 if appropriate) if:

- there is no technical standard;
- the technical guidance provides a choice of standards or is not detailed enough; or
- you plan to use another standard.

#### 5 Operating techniques, continued

The documents should summarise the main measures you use to control the main issues identified in the H1 assessment or technical guidance.

Fill in a separate table for **each** installation or waste facility.

You only need to fill in one table for your mining waste operations.

For each of the activities listed in table 2, describe the type of operation and the options you have chosen for controlling emissions from your process.

In all cases, describe the type of your facility/operation you are applying for, and, if appropriate, use block diagrams to help describe the process. Provide the document references.

Now read section 4 below.

#### 4 The Data Protection Act 1998

We, the Environment Agency, will process the information you provide so that we can:

- deal with your application;
- make sure you keep to the conditions of the licence, permit or registration;
- process renewals; and
- · keep the public registers up to date.

We may also process or release the information to:

- offer you documents or services relating to environmental matters:
- consult the public, public organisations and other organisations (for example, the Health and Safety Executive, local authorities, the emergency services, the Department for Environment, Food and Rural Affairs) on environmental issues;
- carry out research and development work on environmental issues;
- provide information from the public register to anyone who asks:
- prevent anyone from breaking environmental law, investigate cases where environmental law may have been broken, and take any action that is needed;
- assess whether customers are satisfied with our service, and to improve our service; and
- respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows).

We may pass the information on to our agents or representatives to do these things for us.

Now read section 5 below.

#### 5 Confidentiality and national security

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

You can ask for information to be made confidential by enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application.

#### 5 Confidentiality and national security, continued

You can tell the Secretary of State that you believe including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Secretary of State and you must still include the information in your application. We will not include the information in the public register unless the Secretary of State decides that it should be included.
